4

0

Typical Physical Properties

Average Particle Size (μ):	<7
Flexural Strength (psi):	11,500
Apparent Density (gm/cc):	1.80
Hardness (Shore) :	72
Electrical Resistivity ($\mu\Omega$ in):	600

Typical E-940 Applications

Blind Cavities

Punch & Die Sets

Plastic Injection Molds

Powdered Metal Tooling

Fine Detailed Electrodes
